Brand Identity – The Way We See It

Our 'brand role' is a simple and powerful statement that guides everything we do. Including how we look, think and talk to the world.

Why?

The beauty of working together is that everybody has their own ideas and perspectives. However, if we want to build something amazing together we have to agree on a solid foundation.

How?

The purpose of brand identity is to give you a solid foundation for your work, but it won't solve every design question you'll encounter with. Stay creative and feel free to think out of the box when necessary.

TYPOGRAPHY

Typographic Style

We are extremely serious about pushing our typographic experience to the next level.

CIRCULAR STD BLACK ITALIC FOR HEADINGS

When we digged through the online world for the perfect typeface for our headings we wanted a typeface, which emphasize credibility, confidence and trust reflecting our deep underlying values. After days of searching we found Circular the single most versatile font with all the features we dreamed about.

CIRCULAR BOOK FOR BODY TEXTS

For our body text we wanted to choose a typeface which is impossible to stop reading it. This is the point where we can grab that attention we get from using Circular Book. Thanks to the slightly curved shape of Proxima Nova, it gives a friendly tone to our voice in the typographic world.
